BIDDERS **MUST** ACKNOWLEDGE RECEIPT OF THIS AMENDMENT WITH THEIR BID PROPOSAL.

QUESTIONS & ANSWERS:

- Question: Task 1: Network Assessment
 - How many network segments make up VIPD's network?
Answer: There is approximately 24 segments that make up the VIPD network.

 - Could VIPD provide a rough estimate as to the number of nodes they believe exist across their network segments?
Answer: There is approximately 400 nodes across the VIPD network.

- Question: Task 10: Wireless Access
 - How many network locations within the VIPD network will have wireless access enabled, and which ones specifically?
Answer: VIPD's 24 sites will be required to have wireless access.

- Question: Task 13: UPS Repair/Upgrade
 - What are the current make/model(s) of the existing UPS that need to be repaired/upgraded and their backup capability expanded?
Answer: The current model of the UPS is a APC Symetra LX 1600. The expansion capabilities of the current UPS will need to be researched and assessed.

- Question: Task 15: IT Staff Training
 - How many IT staff members are expected to receive training?
Answer: We will need 5 IT personnel to be trained.
