The following information is intended to provide bidders with a format for submitting price quotations that will facilitate the evaluation of responses. Price quotations **must** be submitted using the provided pricing sheets. Additional price information can be added to the pricing sheets, as needed. Responses that do not provide price proposals in the required format may be rejected. Unless noted otherwise, prices quoted will apply for the duration of the term of the contract. As part of the bidder's response (Cost Proposal), bidders should identify any cost reduction factors, the rationale for cost savings, and any options in services that would produce cost savings.

Bidders will be evaluated based on cost and their acceptance of the Statement of Work (SOW). Besides examining costs, cost proposals will be evaluated based on a review of assumptions and exceptions to the SOW that are made by the bidder. Bidders **must** clearly articulate any exceptions to the SOW and describe how they will meet the requirements of the VI SNAP EBT project.

Pricing Relationships

It is the intent of the Territory to provide improved service to benefit clients at low cost while providing reasonable returns to private sector participants including EBT Contractors, retailers and switch networks.

The following table "Cooperator Cost Relationships" is presented to illustrate the intended cost sharing among Virgin Islands EBT cooperators. It is provided for informational purposes only and is not intended to explicitly require or commit to payments by any particular group.
