Questions and Answers:

- 1) For the Bookmobiles, are you needing Internet service at a fixed location or wherever the Bookmobile is located that day / week? If the location is a moving target, is 100Mbps required or is 25Mbps or 50Mbps sufficient at the temporary location?

Answer: The internet service is needed for wherever the bookmobile is located through the island. Based on advisement from BIT, 100Mbps is required because of the services the bookmobile provides and the speed required to provide said service.

Williams Public Library, and Regional Library for the Blind and Physically Handicapped on St. Croix.

- 3) The RFP requests connections using DS3 ports. Can we substitute Gig Ethernet ports instead of DS3 ports?

Answer: Based on advisement from BIT, please substitute to the Ethernet ports instead of DS3 ports.
